Instructions

If you have taken both the *Type Indicator*® and the *MBTI*®, transfer your dominant scores for each style and instrument, and compare your results from the two instruments.

- How often do you see correlations?
- Where there are differences, can you explain why they should be?
- Do you think the instruments are picking up different aspects of your personality and style?

Extroverted vs. Introverted	
Type Indicator Score	MBTI Score
Sensing vs. Intuitive	
Type Indicator Score	MBTI Score
Thinking vs. Feeling	
Type Indicator Score	MBTI Score
